2014 – 2015 TANK PROTECTION CONTRACT

Effective Dates: September 1, 2014 – August 31, 2015

We are continuing to offer TANK PROTECTION to our customers for only \$49.95 per year.

TANK PROTECTION eliminates the worry and cost of replacing your oil tank. If your steel oil tank leaks, Cromwell Energy will replace it free of charge. In other words, for only a few dollars a month, tank replacement is now our responsibility.

TANK PROTECTION

For the sum of \$49.95 per year, we guarantee to replace any 275-gallon tank if it leaks due to internal corrosion. **Cromwell Energy must inspect any tank not covered the previous year before coverage can begin.** Please call our office and we will be glad to schedule your inspection.

NOT COVERED: Previously patched or repaired tanks, underground tanks, tanks damaged by explosion, fire, flood, storm, hurricane, homeowner negligence, tanks not connected to an oil-fired burner, and loss of oil. This guarantee covers only the tank. Any additional fittings or work needed to bring the tank up to current building codes will be charged at standard rates. Cost of disposal of oil tank, sludge, or waste also not included.

Customer will remove all walls, partitions, or enclosures around the tank. Tank **MUST** be easily accessible. Additional charges will apply to homes without hatchways or walk-out basements, as well as extra charges for smaller or multiple tanks if basement is not accessible.

This contract will be automatically renewed each year unless we are notified by the customer. Simply sign and date this contract and return it to Cromwell Energy along with your payment.

Thank you.
